\* 2015 U.S. PISA and NAEP participant figures are rounded.

\*\*The TIMSS Benchmarking Study provided an opportunity for states and school districts to assess the comparative international standing of their students' achievement. The participating states and districts administered the assessments following the same guidelines for the main TIMSS assessments, but separately from the U.S. national sample. State-level data for TIMSS 2011 was released for nine states (AL, CA, CT, CO, FL, IN, MA, MN, and NC).
