Introduction

The Commission for Independent Education was established in 2001 and is responsible for the licensure of independent postsecondary educational institutions in the state of Florida. The 2022-2023 Annual Report provides a summary of the activities conducted by the Commission over the past fiscal year. The activities of the Commission primarily revolve around consumer protection and involve ensuring that institutions comply with fair consumer practices and meet minimum educational standards. The fair consumer practices and standards are outlined in Chapter 6E, Florida Administrative Code, and include the following:

- Name
- Purpose
- Administrative Organization
- Educational Programs and Curricula
- Recruitment and Admissions
- Finances
- Faculty
- Library, Learning Resources and Information Services
- Physical Facilities
- Student Services
- Publications and Advertising
- Disclosures

The mission of the Commission for Independent Education is:

- To serve as a consumer protection agency
 - By protecting the individual student
 - By promoting accountability at the independent postsecondary level
- To protect the integrity of licensed institutions
 - By assuring that certain standards are met
- To encourage independent institutions to offer programs that meet the needs of Florida citizens

Executive Summary

The Office of the Executive Director of the Commission for Independent Education (Commission) reviewed 137 new institutional applications for a Provisional License during the 2022-2023 fiscal year. Of these, 83 institutions received a Provisional License. At the conclusion of the 2022-23 fiscal year, 54 of the 137 institutions still had conditions pending to complete their applications.

Applications for four (4) branch campuses were reviewed during the 2022-2023 fiscal year. Three (3) of these applications for branch campuses were approved by the Commission. One new branch application still had conditions pending at the conclusion of the fiscal year.

Commission staff processed 134 First Annual applications. Of these, 55 institutions received their First Annual License, and 79 were not completed during this fiscal year because all the conditions for licensure had not been met.

Commission staff completed the review of 500 applications for renewal of Annual License. Of these, 295 institutions renewed their Annual License. Two hundred five (205) applications for renewal of Annual License were not completed during this fiscal year because all the conditions for licensure had not been met.

Twenty-two (22) applications for first License by Means of Accreditation (LBMA) were processed. Of these, 12 accredited institutions received their first License by Means of Accreditation. At the end of the fiscal year, 10 institutions still had conditions pending to complete their applications.

Commission staff completed the Annual Review of 306 License by Means of Accreditation (LBMA) applications for non-degree and degree-granting institutions during the 2022-2023 fiscal year. Of these, 190 applications were completed, and 116 institutions still had conditions pending to complete their applications at the end of the fiscal year.

The Commission's staff also processed 13 applications for Extension of Annual License. Of these, 9 institutions extended their Annual License. Four (4) institutions still had conditions pending to complete their applications at the end of the fiscal year.

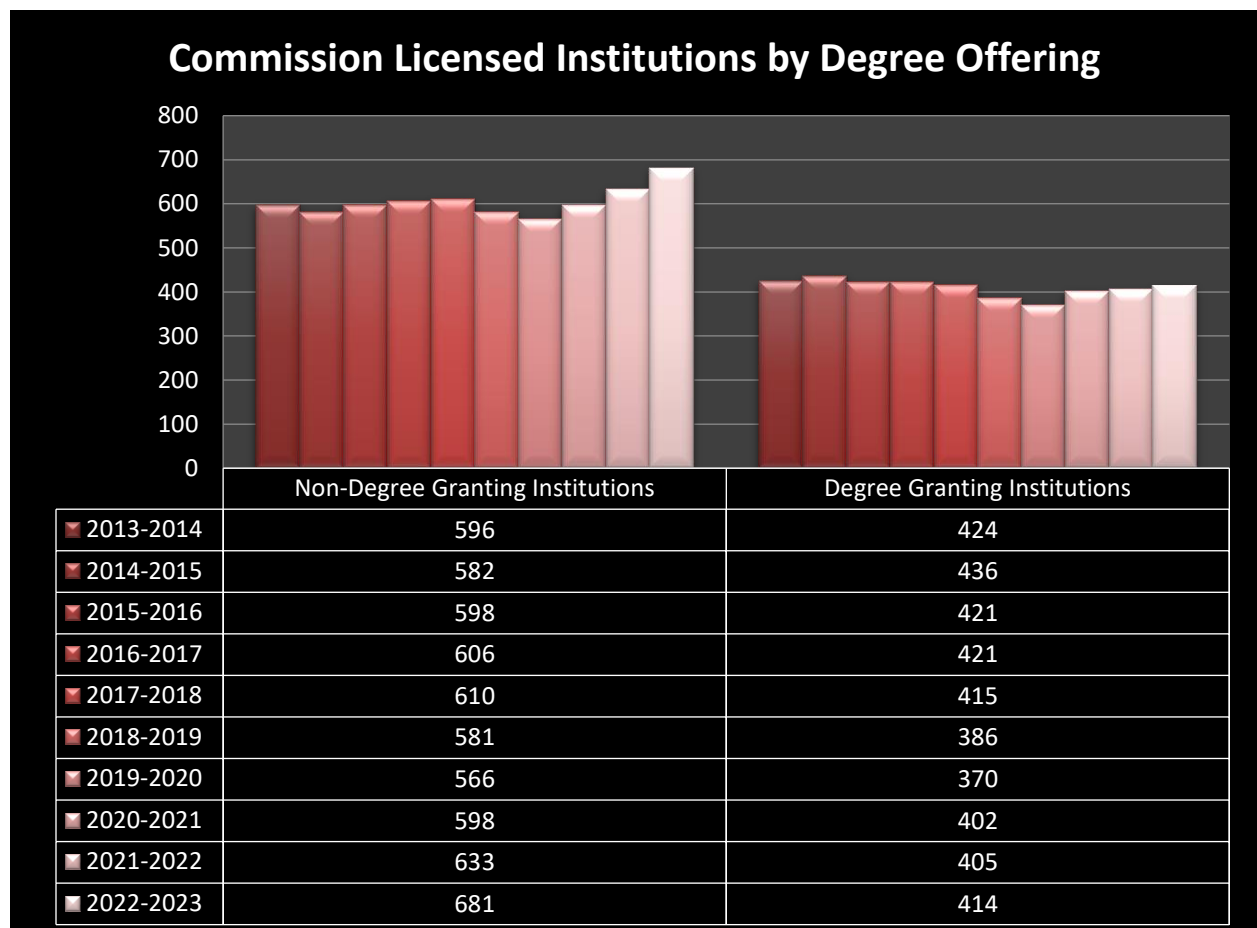

During the 2022-2023 fiscal year, 44 licensed institutions were reported as closed and 23 licensed institutions were approved for a Change of Ownership/Change of Control. At the close of the fiscal year, a total of 35 institutions were still working on fulfilling contingencies to have their Change of Ownership/Change of Control approved.

The Commission approved applications for 178 new program offerings and 75 program modifications to existing programs for institutions holding an Annual License during the fiscal year. At the end of the fiscal year, there were 59 applications for new programs and 53 program modifications still pending because all conditions for approval had not been met. In addition, the Commission's staff completed 180 new program applications submitted by LBMA institutions. At the close of the fiscal year, there were 90 new LBMA programs that were not completed because all the conditions for approval had not been met.

Four hundred fourteen (414) degree-granting institutions are under the jurisdiction of the Commission. Of these 414 institutions, 206 offer both non-degree and degree programs. The total reported enrollment for all degree programs during FY 2021-2022 (the last complete reporting period) was 137,591 with 38,000 reported graduates. At the conclusion of the 2022-23 fiscal year, 266 (64%) of these degree-granting institutions were accredited by one or more regional or national accrediting agencies.

A total of 681 licensed institutions offer only non-degree programs. The 2021-2022 reported enrollment for all non-degree programs was 69,771 with 46,710 reported graduates. Of these graduates, 35,680 (76%) were placed in jobs, joined the military, or are continuing their education at an institution of higher education. During the 2022-23 fiscal year, 163 (24%) of the licensed, non-degree institutions were accredited by one or more regional or national accrediting agencies.

The following chart illustrates the number of degree-granting institutions and non-degree schools licensed by the Commission for Independent Education during the last ten fiscal years:

Commission Membership

The Commission is comprised of seven Commissioners appointed by the Governor and confirmed by the Senate. As required by statute, the Commission consists of: two representatives of independent colleges or universities licensed by the Commission; two representatives of independent, non-degree granting licensed schools; one member from a public school district or Florida College System institution who is an administrator of career education; one member from a college that meets the criteria of section 1005.06(1)(f), Florida Statutes (F.S.); and one lay member who is not affiliated with an independent postsecondary educational institution. Data Collection and Dissemination

Pursuant to s. 1005.22(1)(i), F.S., the Commission serves as a central agency for collecting and distributing current information regarding licensed institutions. The data collected are used as a part of the licensure of private postsecondary institutions, in response to public records requests, and are frequently provided to other state agencies upon their request. These state agencies include, but are not limited to:

- Florida Department of Economic Opportunity
 - Eligible Trainer Provider List
 - Florida Research and Economic Database
- Florida Department of Education
 - Office of Student Financial Assistance
 - Division of Career and Adult Education
 - Division of Vocational Rehabilitation
 - Florida Education and Training Placement Information Program
- Florida Department of Health
 - Board of Nursing
 - Board of Massage Therapy
 - Board of Electrolysis
 - Council on Licensed Midwifery
- Florida Department of Business and Professional Regulation
 - Board of Cosmetology

The Commission shared institutional licensure information with staff from various departments and offices, as needed. These exchanges are part of an ongoing effort by the Commission to increase collaboration and work more closely with agencies that impact the Commission and the institutions under its jurisdiction.

For the thirty-second year, Commission staff worked with the Florida Education and Training Placement Information Program (FETPIP) to track the placement of graduates of independent postsecondary non-degree institutions and degree-granting colleges and universities. For Fiscal Year 2022-2023, 49 non-degree schools and 120 degree-granting colleges and universities agreed to participate in this data collection effort. Participating institutions submitted graduate data via the Commission's FETPIP Data Collection Web Page. These schools, colleges and universities submitted information on a total of 24,470 students who graduated during the previous fiscal year (2021-2022). During 2023, FETPIP attempted to match the student records with employment data to verify each graduate's employment status and occupational industry. A report of this information, aggregated on a program-by-program basis, was made available in December 2023 to each participating institution.

Commission staff supplied data regarding licensed colleges and universities (and their degree-based programs of study) to the Florida Virtual Campus website (<http://www.flvc.org>). This site supplies an online computer software application that is used by students throughout Florida to plan for and to monitor the progress of their postsecondary education at participating Florida institutions.

The Commission supplied information about its degree-granting institutions to the Department of Education for listing in the Florida Counseling for Future Education Handbook.

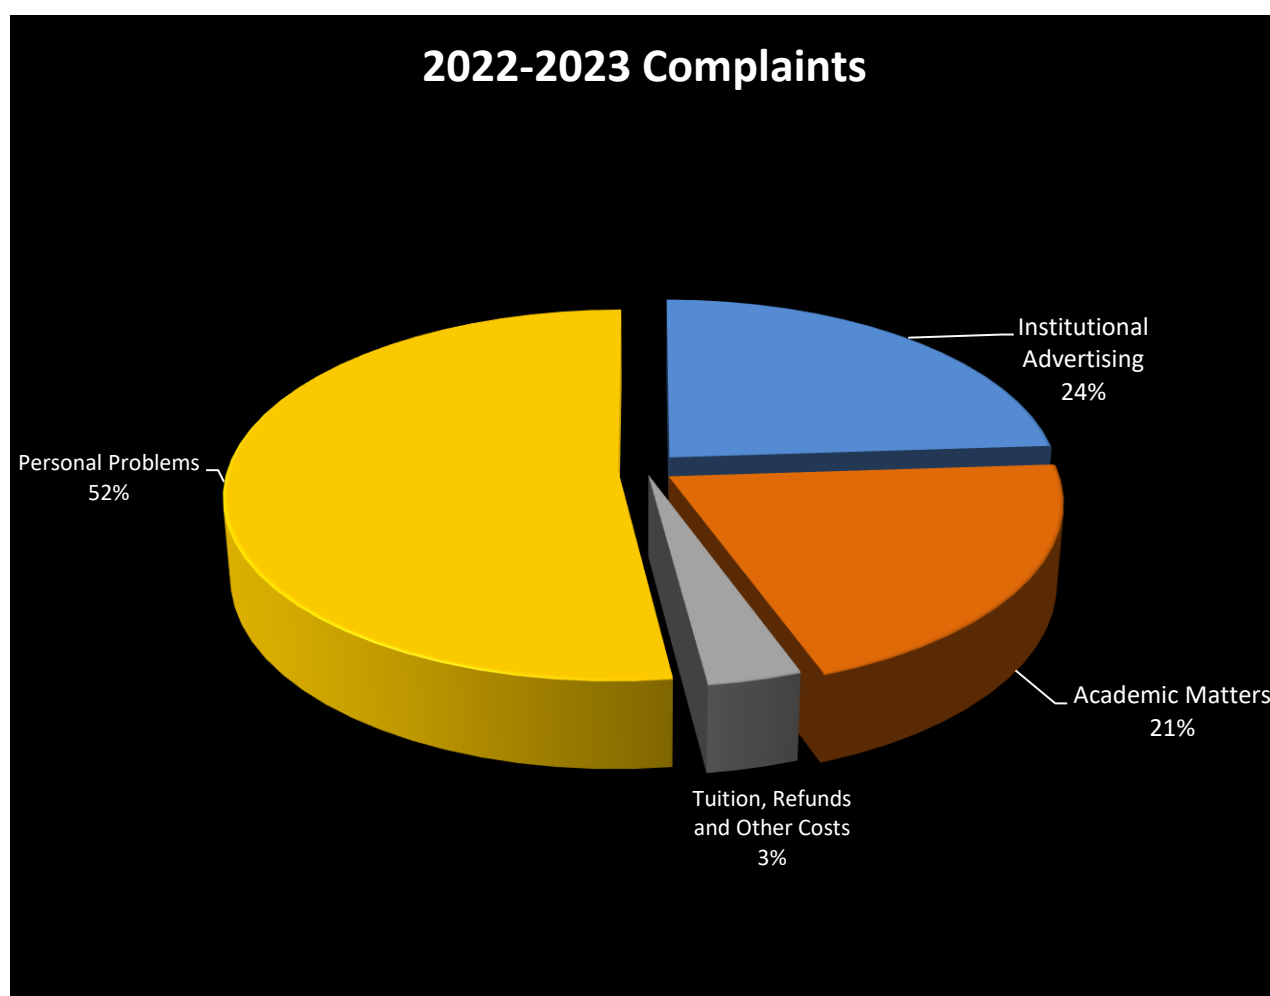

The Commission submitted data concerning licensed institutions and offered programs to the Department for Economic Opportunity. These data are to be included in the Eligible Training Provider List (ETPL). The ETPL is used by the Regional CareerSource Boards to determine which institutions offer training programs that lead to occupations that are contained within each region's Regional Demand Occupations List. Commission staff work with the DOE's Division of Florida Colleges and Career and Adult Education MIS staff to continuously update the common set of Classification of Instructional Programs (CIP) codes used by Florida's public and nonpublic postsecondary education sectors. This taxonomy allows programmatic offerings from both the public and private postsecondary education sectors to share common CIP codes and CIP titles, where possible, and to have distinct CIP codes and CIP titles when necessary. In addition, each of these programs is "linked" to an occupational outcome using the codes found in the Standard Occupational Classification Manual. These linkages are used by the Department of Economic Opportunity and the Regional CareerSource Boards to identify which institutions offer training programs that lead to occupations included on each Regional Demand Occupations List.

During Fiscal Year 2022-2023, Commission staff met with staff members from other state agencies responsible for the individual licensure of persons who enter certain professions. Since institutions under the Commission's jurisdiction offer many of these programs of study, the Commission continues to exchange data with these other agencies to develop uniformity between the standards that govern the licensing of institutions, the regulations for licensing professionals, and the rules governing the practice of a profession. These regulatory groups include: the Florida Department of Health's Board of Acupuncture, Board of Massage Therapy, Board of Nursing, Board of Dentistry, Board of Pharmacy, the Bureau of Emergency Medical Services, the Florida Council of Licensed Midwifery, and the Electrolysis Council; the Department of Business and Professional Regulation's Board of Cosmetology; the Department of State's Bureau of Licensing; and the Department of Transportation.

Consumer Services

Commission staff members received over 1,000 calls per month on the toll-free phone line from individuals seeking information about nonpublic postsecondary educational institutions in Florida. The Commission investigates complaints about institutions under its authority to ascertain compliance with state law and the Commission's regulations. All compliance allegations received by the Commission are referred to the Compliance Team to determine if there has been a violation of the Commission rules or the pertinent sections of the Florida Statutes.

During the 2022-2023 fiscal year, 263 consumer complaints were received in the Commission's office. The following chart illustrates the primary areas of concern raised in consumer complaints.

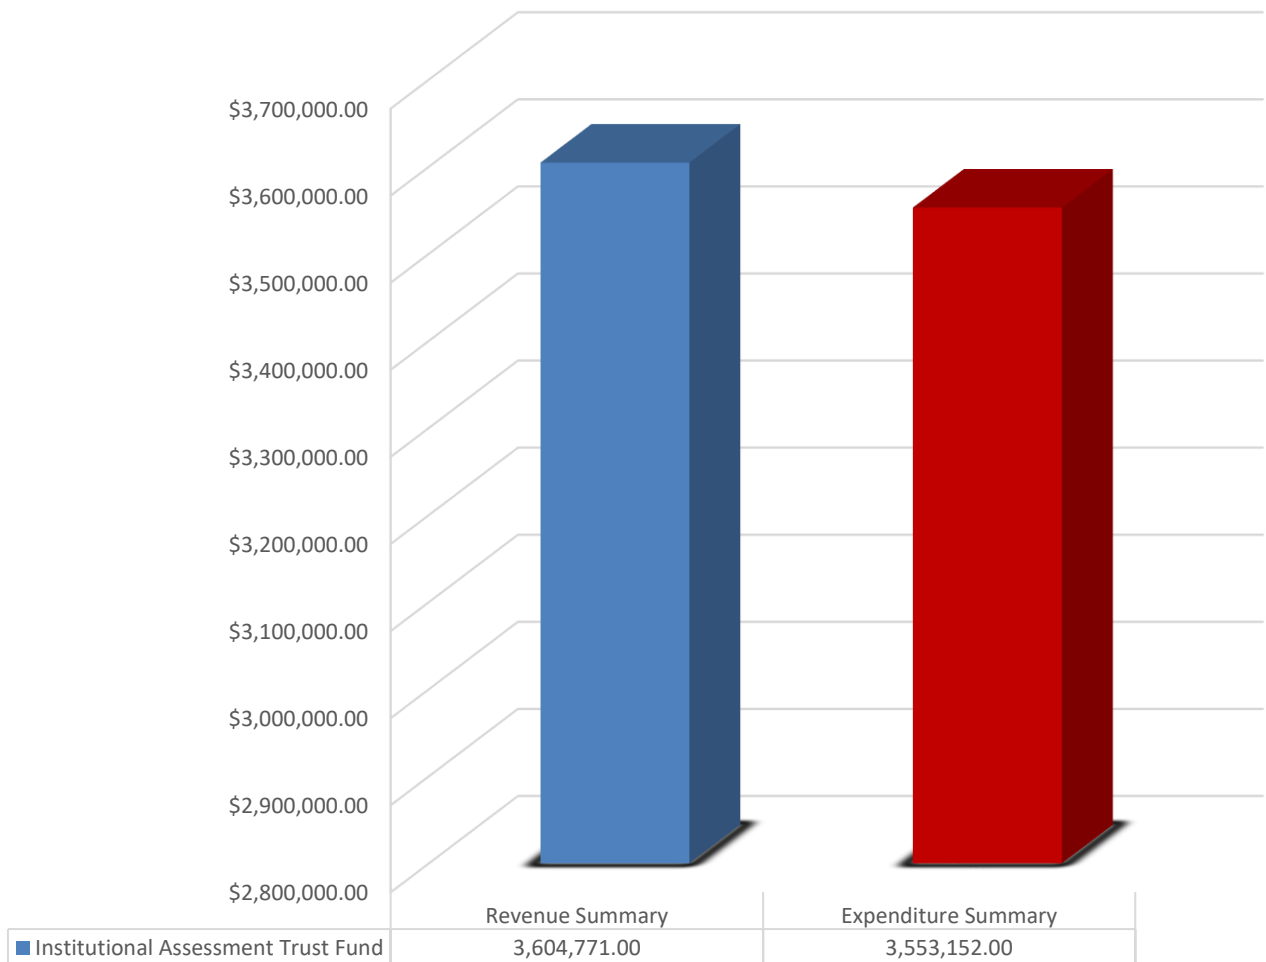

The Commission also sent 82 Letters of Noncompliance to entities that appeared to be operating a school or college without a license. Each organization contacted by the commission to address noncompliance is expected to cease the cited activity and to apply for and obtain a Provisional License from the Commission if it cannot show that its activities legitimately fall outside the Commission's jurisdiction.

Annual Budget

All Commission related functions are wholly funded by the fees collected from licensing activities. The fiscal year 2022-2023 expenditures (\$3,553,152.00) were paid by the revenue that is collected from licensed institutions for licensure fees, program additions, program modifications, fees (agent, late & other), and fines. At the time of publication, \$3,604,771.00 [includes licensure fees, administrative fines, Statewide Course Numbering System maintenance fees, and state authorization reciprocity fees] has been received from all of these revenue sources and deposited into the Institutional Assessment Trust Fund. As part of the total revenue collected, there was also \$226,837.20 received in Student Protection fees from the licensed non-degree schools, which was deposited into the Student Protection Fund.

Revenue vs Expenditures 2022 - 2023

Commission staff recommend an annual budget that must be approved by the Commission and submitted to the Legislature by the Florida Department of Education. The appropriation was \$4,742,503 for the 2022-2023 fiscal year. The following figures enumerate the appropriation and expenditures, by category, for the Institutional Assessment Trust Fund.

Commission Meetings

Florida law requires the Commission to meet at least four times each fiscal year. Topics of discussion include licensure approvals and denials, discussion on passage and completion rates and updates to federal guidelines, accreditation and Florida law. All Commission meetings are available via webcast at: <http://fldoe.org/policy/cie>, and a copy of the agenda may be obtained by writing to the Commission for Independent Education at 325 West Gaines Street, Suite 1414, Tallahassee, Florida 32399-0400 or by calling the Commission at 850-245-3200.

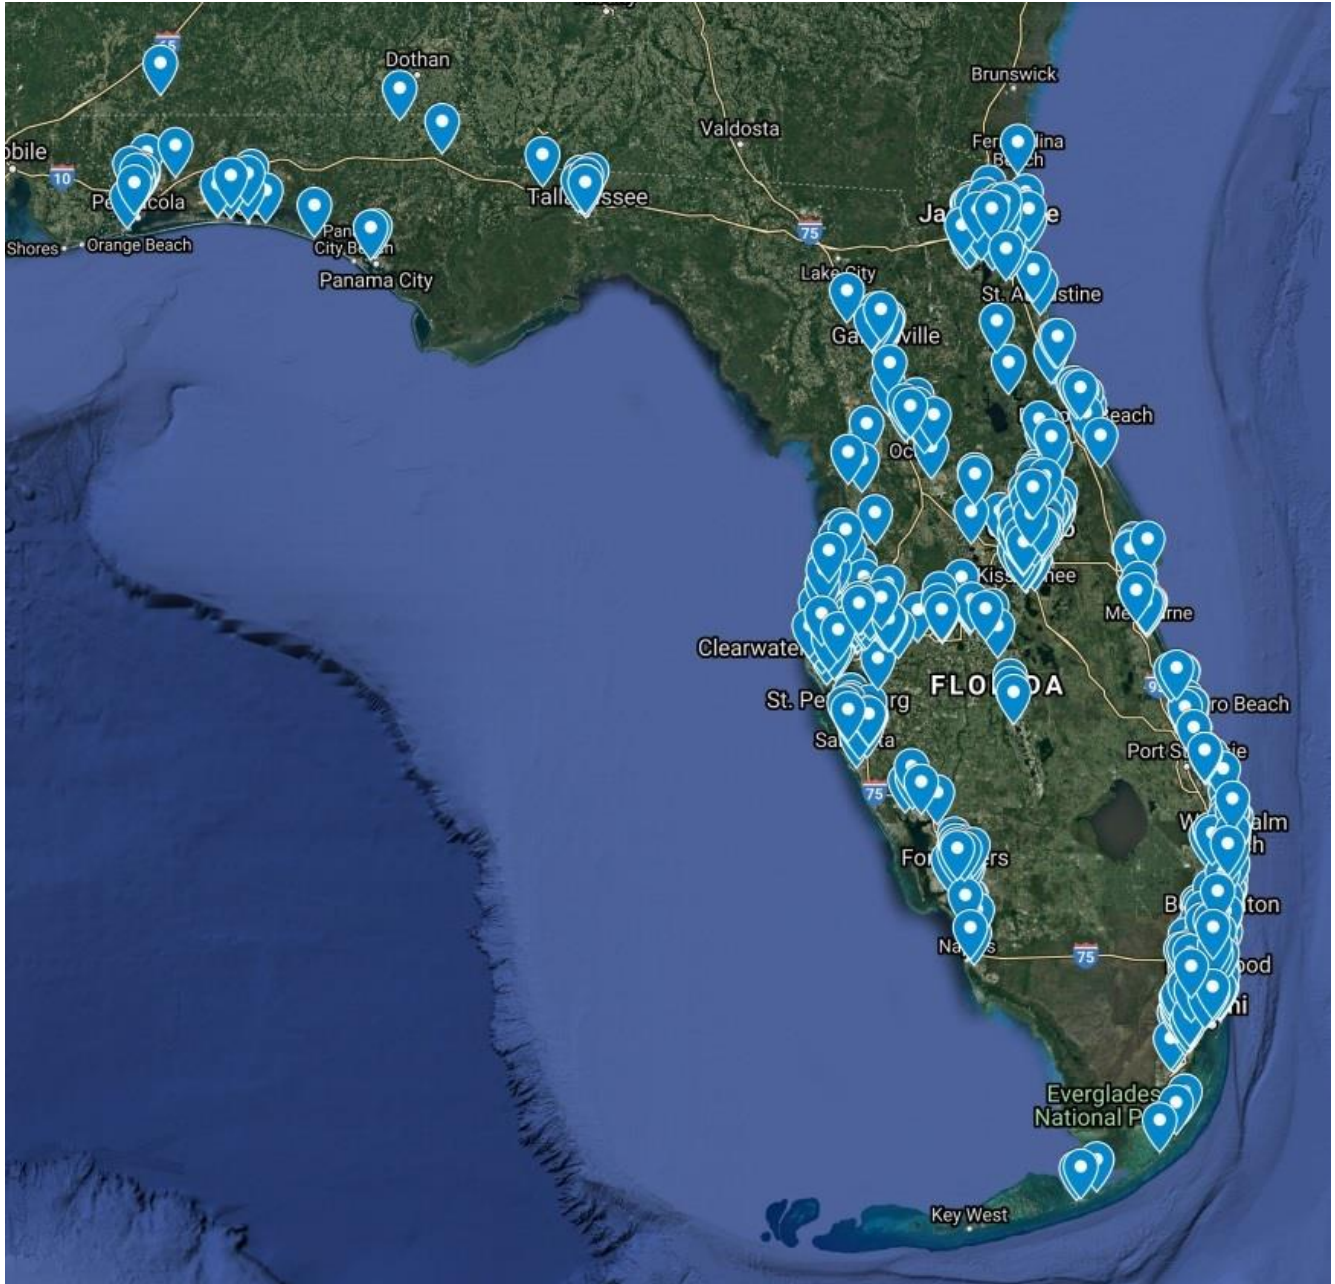

The Commission meets bimonthly, in the months of January, March, May, July, September, and November. All meetings of the Commission, and any of its committees, are open to the public. Advance notice of Commission meetings is always given through the Florida Administrative Weekly. The Commission maintains official minutes of its proceedings, an audio tape recording of every meeting, and has a video record of the meetings that are webcast. Each Commission member receives the meeting agenda before each meeting as an automated document. The Commission conducted the first webcast of a Commission meeting in March 2005. The Commission has now webcasted all the regular meetings since the beginning of the 2006- 2007 fiscal year and is planning to continue to webcast all the Commission meetings during the 2023-2024 fiscal year.

The Commission for Independent Education meetings were held at the following locations during the 2022-2023 fiscal year:

<u>July 26-27, 2022</u> Mission Inn Resort & Club 10400 County Road 48 Howey-In-The-Hills, Florida 34737	<u>January 26-27, 2023</u> Virtual Meeting

Location of Licensed Institutions

The following chart illustrates the locations of institutions licensed by the Commissioner throughout Florida.

Provisional License

A Provisional License is the first level of licensure obtained by an applicant and allows the institution to advertise, recruit students, accept fees and tuition from or on behalf of students, and hold classes. Provisional Licensure is granted when the Commission has determined that an applicant is in substantial compliance with the standards for licensure. A Provisional License is typically granted for one year. The license may be extended for one additional year if the Commission determines that the applicant is making a good faith effort to comply, but a delay occurs due to extraordinary circumstances.

The process to obtain Provisional Licensure for a new applicant normally takes six to twelve months. During this period, the applicant is notified of any apparent omissions or deficiencies contained within the application, the Commission staff works with the applicant to finalize all materials, and the completed application is presented to the Commission's consideration and approval. There are circumstances where the process may take longer than the average time period, such as when applicants are not able to timely submit all necessary materials. In these situations, it may take longer than one year to obtain licensure. An incomplete application expires one year after initial filing.

Institutions holding a Provisional License do not have the full privileges that an Annual License provides. A Provisional License does not allow an institution to request approval of or implement a substantive change such as any change in control, level of credentials offered, a change in location that exceeds 45 miles, or a change in the purpose of the institution that exceeds minor corrections or alterations. Furthermore, institutions that hold a Provisional License may not add new degrees, programs or majors to their offerings or alter any licensed program by more than 20 percent since its last review, change the title of a program or the credential awarded, or discontinue a program.

Institutions that hold an Annual License or a License by Means of Accreditation are granted a Provisional License when a substantive change has occurred. Substantive changes vary in nature and are presented at the Commission's bi-monthly meetings.

Annual License

Annual Licensure is a secondary level of licensure obtained by an institution and is granted when the Commission has determined that an institution is in full compliance with the standards for licensure. An institution may continue to hold an Annual License if the institution remains in full compliance with the standards for licensure, does not undergo a substantive change, or meets the requirements and applies for a License by Means of Accreditation. An Annual License is typically granted for one year. Prior to the granting of an initial Annual License, a satisfactory on-site visit must occur.

The process to obtain an initial Annual License or renewal of an Annual License normally takes three months from receipt of the Application for Annual License. During this period, the applicant is notified of any apparent omissions or deficiencies contained within the application, the Commission staff works with the applicant to finalize all materials, and the application is presented at one of the Commission's bi-monthly meetings for action. There are circumstances where the process may take longer than the average three-month period, such as when applicants are not able to timely submit all the necessary materials or are not able to demonstrate full compliance with the licensure standards.

Institutions holding an Annual License, unlike those holding a Provisional License, are allowed to request the Commissioner's approval of and implement a substantive change such as any change in control, level of credentials offered, a change in location that exceeds 45 miles, or a change in the purpose of the institution that exceeds minor corrections or alterations. Furthermore, institutions that hold an Annual License may add new degrees, programs or majors to their offerings or alter any licensed program by more than 20 percent since their last review, change the title of a program or the credential awarded, or discontinue a program upon approval by the Commission.

License by Means of Accreditation

License by Means of Accreditation (LBMA) is a license status that allows an institution to comply with an accreditor's standards, rather than the Commission's, when the accreditor is recognized by the U.S. Department of Education *and* has standards that meet or exceed the Commission's. This license status must be requested by an institution and is granted when an institution provides evidence that it has been licensed for five consecutive years, holds institutional accreditation by a Commission recognized accrediting agency, meets minimum requirements for financial responsibility, has consistently followed fair consumer practices, and has no unresolved complaints or other actions in the prior twelve-month period.

During fiscal year 2022-2023, the Commission has evaluated several accrediting agencies for recognition and approved 17 accrediting agencies for purposes of licensure by means of accreditation:

- ABHE – Association for Biblical Higher Education
- ABA – American Bar Association
- ABHES – Accrediting Bureau of Health Education Schools
- ACCET – Accrediting Council for Continuing Education & Training
- ACCSC – Accrediting Commission of Career Schools and Colleges
- ACICS – Accrediting Council for Independent Colleges and Schools
- COA – Council on Accreditation of Nurse Anesthesia Educational Programs
- COE – Council on Occupational Education
- COMTA – Commission on Massage Therapy Accreditation
- DEAC – Distance Education Accrediting Commission
- HLC – The Higher Learning Commission
- MSA-CSS - Middle States Commission on Secondary Schools
- MSCHE – Middle States Commission on Higher Education
- NACCAS – National Accrediting Commission of Career Arts and Sciences
- NECHE – New England Commission of Higher Education
- SACSCOC – Southern Association of Colleges and Schools Commission on Colleges
- TRACS – Transnational Association of Christian Colleges and Schools
- WSCUC - WASC Senior College and University Commission

The process of moving from an Annual License to a License by Means of Accreditation typically takes three months from receipt of the Application for License by Means of Accreditation. During this period, the applicant is notified of any apparent omissions or deficiencies contained within the application, the Commission staff works with the applicant to finalize all materials, and the completed application is presented at one of the Commission's bi-monthly meetings for action. There are circumstances where the process may take longer than the average three-month period, such as when applicants are not able to timely submit all the necessary materials required for approval of a License by Means of Accreditation.

While the License by Means of Accreditation is valid for the same period as the grant of accreditation, institutions are required to be reviewed annually. In order to maintain the License by Means of Accreditation for each remaining year of their grant of accreditation, these institutions must submit an application for annual review to the Commission.

The Commission issued a License by Means of Accreditation status to the following institutions during the 2022-2023 fiscal year:

On-site Visit Reports Submitted

The Commission staff conduct on-site visits to institutions under the jurisdiction of the Commission and at the Commission's direction. An institution may be visited more than one time for any of the following conditions: to assist an institution in complying with the rules and statutes; as a criterion for annual licensure; to determine if any of the provisions of the rules and statutes are being violated; for the purpose of securing such other evidence as may be needed for prosecution pursuant to Section 1005.38, F.S.; by the order of the Commission; or upon receiving an application containing information that may cause an investigation to be made of the institution. Site visits are carried out to evaluate the institution's compliance with the Commission's 12 standards (6E-2.004, F.A.C.). These standards include physical facilities, student records storage, on-site equipment and supplies, instructional and administrative personnel, current catalog, student contracts, class schedules and program offerings, tuition charges, placement and counseling services, licensing of agents, faculty qualifications, and advertising policies.

Student Records Retained by the Commission

Each year, the Commission for Independent Education receives student records from schools, colleges, and universities that have ceased operations. These student records are optically scanned and placed on the DOE network's hard drives for permanent storage. Those records are then maintained for the future servicing of student records requests. During fiscal year 2022-2023, Commission staff processed 3,568 records for former students from closed institutions. Hard copy and/or digital student records from the following institutions were received by the Commission during this fiscal year:

House Bill 1537 Chapter 2023-39 Laws of Florida	Education	Education & Employment Committee, Appropriations Committee, Education Quality Subcommittee, Representatives Daniels, Rizo and others	July 1, 2023

House Bill 33 Summary

Creates an interstate agreement for Florida licensed psychologists to be recognized and obtain licensure and/or practice licensed duties in other states that meet the agreement criteria and participate in the compact.

House Bill 139 Summary

Provides assistance, through the creation of the Office of Veteran Licensure Services (OVLS) within the Department of Health, to veterans and their spouses in obtaining professional licensure in healthcare professions; waives certain fees as part of the licensure process; and requires the OVLS to coordinate with each health practitioner regulatory board or the Department of Health, if there is no board, to expedite applications for licensure.

Senate Bill 252 Summary

Prohibits business entities, governmental entities, and educational institutions from imposing mandatory mask and vaccine mandates.

Prohibits requiring a person to wear a mask or denying a person access to, entry upon, service from, or admission to the entity or institution or discriminating against any person based on his or her refusal to wear a mask or provide verification of COVID-19 vaccination.

Prohibits mask and vaccine mandates as well as COVID-19 testing mandates in educational institutions, business entities, and governmental entities. Prohibits these entities and institutions from requiring specified documentation relating to vaccines as a condition to gaining access to, entry upon, or service from the entity or institution. Also prevents a person from being discriminated against in hiring or other employment-related activities based on COVID-19 status.

Requires entities and institutions to provide exemptions and reasonable accommodations for religious and medical reasons.

Provides that entities or institutions in violation of these provisions are subject to disciplinary action, including fines up to \$5,000 for each violation.

Provides a definition of “educational institution” to mean a “public or private school, including a preschool, elementary school, middle school, junior high school, secondary school, career center, or postsecondary school.”

House Bill 391 Summary

Creates the Home Health Aide for Medically Fragile Children Program for family caregivers to receive training and gainful employment. The bill allows a family caregiver to be reimbursed by Medicaid, as a home health aide for medically fragile children.

Requires the Agency for Health Care Administration (AHCA) to approve, in consultation with the Board of Nursing, home health aide for medically fragile children training programs developed by home health agencies. Training programs must consist of a minimum of 85 hours and include 40 hours of nursing theory instruction, 20 hours of basic nursing skills, 16 hours of clinical training, and training on HIV/AIDS infections. Home health agencies are required to provide this training without charge to a parent, guardian, or family member of a medically fragile child.

Senate Bill 558 Summary

Allows a licensed Certified Nursing Assistant (CNA) to become a Qualified Medication Aide (QMA) while working under the direct supervision of a registered nurse in nursing home facilities, upon meeting certain requirements.

In order to be designated as a QMA, a CNA must meet certain requirements, including holding a clear and active

certification as a CNA for at least one year preceding the delegation; completing an additional 34-hour training course approved by the Board of Nursing (BON) in medication administration and associated tasks; and completing a supervised clinical practice in a nursing home facility.

House Bill 1133 Summary

Amends eligibility requirements for licensure as a physician assistant to allow the acceptance of applicants who “completed” or “matriculated,” rather than graduated from, an approved program prior to December 31, 2020.

Additionally, authorizes the Board of Medicine and Board of Osteopathic Medicine to grant a license to an applicant who does not meet the educational requirements for licensure, but has passed the Physician Assistant National Certifying Examination. These changes reinstate licensure eligibility for physician assistants who graduated from accredited physician assistant programs with a bachelor’s degree who were negatively affected by a 2021 legislative change that rendered them ineligible.

Senate Bill 1272 Summary

Creates a grant under the William L. Boyd, IV, Effective Access to Student Education (EASE) Grant Program for any full-time degree seeking undergraduate student who:

1. Attends an independent nonprofit university that:
 - a. Was formerly eligible for the Access to Better Learning and Education (ABLE) Grant program;
 - b. Has been located in this state for more than 20 years;
 - c. Offers prelicensure nursing programs in Florida (LPN, ASN, or BSN); and
 - d. Is accredited by the Higher Learning Commission (HLC).
2. Attends an independent for-profit university that:
 - a. Is located in and chartered by this state;
 - b. Is accredited by an accrediting agency or association recognized by the database created and maintained by the United States Department of Education (USDOE);
 - c. Was licensed by the department on or before October 1, 2021; and
 - d. Has Level 6 accreditation from the Commission on Colleges of the Southern Association of Colleges and Schools (SACSCOC).

The above institutions are not permitted to be a state university or Florida College System institution, must have a secular purpose, and receipt of state aid may not have the primary effect of promoting or advancing religion.

Qualifying institutions wishing to participate are required to provide a one-time written notice to the Department of Education on or before September 1, 2023, and meet the eligibility requirements of s. 1009.89 (5)(a)-(c), F.S.

House Bill 1521 Summary

Requires “covered entities,” which includes postsecondary educational institutions or facilities, to maintain restroom and changing facilities separately designated for males and females or have a unisex facility. Defines “postsecondary educational institution or facility” as: a state university; Florida College System institution; school district career center; college or university licensed by the Commission for Independent Education pursuant to s. 1005.31(1)(a), F.S.; or an institution not under the jurisdiction or purview of the commission as identified in s. 1005.06(1)(b)-d(f), F.S.

Requires all covered entities to submit documentation regarding compliance with the facility requirements. Institutions licensed by the Commission for Independent Education (CIE) and those not under the jurisdiction of CIE as identified in s. 1005.06, (b)-(f), F.S., will be subject to the documentation requirements.

Limits instances when a person may enter a facility designated for the opposite sex to certain circumstances. Provides that failure to depart a facility designated for the opposite sex by persons other than the covered entity’s employees constitutes trespass.

Allows an employee of a covered entity to request that a person depart a facility designated for the opposite sex on a covered entity's premises, when the entry is not for an authorized purpose.

Requires each type of covered entity to establish disciplinary procedures for its employees, certain persons under its control, and other specified personnel for failing to follow these requirements.

Gives the Attorney General enforcement authority, including the authority to seek injunctive relief and impose fines of up to \$10,000 for violations of these provisions.

House Bill 1537 Summary

Revises Chapter 1005, F.S. to:

1. Require institutions, prior to enrollment, to provide a written disclosure to students or prospective students regarding fees and costs, refund policy, exit exam requirements, grade point average requirements, for program or degree completion, and scope of accreditation, if applicable, in a format approved by CIE.
2. Place the burden of proving compliance with fair consumer practices on the institution and/or other applicable authority when applying for licensure.
3. Require CIE to prepare an accountability report for licensed institutions containing, at a minimum, graduation rates, including the number of graduates by program, retention rates, and placements rates.
4. Require licensed institutions to provide select data to the commission in an approved format and requires placement rates to be determined using a methodology approved by CIE.
5. Require CIE to establish a common set of data definitions for institutional reporting purposes.
6. Require an administrative fine of not more than \$500.00 for failure to submit the required data in a timely manner.
7. Give CIE the authority to investigate individuals, entities and institutions to determine if institutional operations are in compliance with rules and laws.
8. Require institutions to submit a retention and completion management plan as part of the licensure standards that must be met for initial licensure and annual renewal.
9. Add verification of high school graduation, high school equivalency or qualifying scores on an ability-to-benefit test to the licensure standards relating to admissions and recruitment.
10. Allow the commission to require a management plan and/or prohibit or limit enrollments based on: an institution's compliance with licensure standards and/or other established benchmarks; probationary or adverse actions taken by other approval entities; or other similar situations in which an institution is not able to meet the needs of students.
11. Allow CIE to create rules to set performance benchmarks and identify high-performing institutions.
12. Require a licensed institution to disclose all programs offered, including, but not limited to:
 - a. Avocational programs;
 - b. Examination preparation programs;
 - c. Contract training programs;
 - d. Continuing education programs; and
 - e. Professional development programs.
13. Require all prec licensure professional nursing programs to be institutionally accredited prior to obtaining approval from CIE.
